COMPANY

Euroagrícola Andrés is an international firm with 35 years of experience in the selling of new and secondhand spare parts for tractors.

In spite of customers based in Spain, we are recently working in partnership with some European countries as: France, Portugal, Belgium, Italy and Germany.

We are very serious and hard working, and your satisfaction is our priority.

BREAKING FOR SPARE-TRACTORS PARTS

Firstly, all of our secondhand spare-parts are from the tractors we buy.

Secondly, they are transformed into pieces by our mechanics, after a meticulous check up, they are cleaned and tested and if all is perfectly mount, finally they are stacked by groups in shelves (engine, clutch, gear...) in order to facilitate the selling and remember that the pieces requested are easily and quickly delivered to you. In case, we lack a command, our partners in Europe will supply it to us.

BREAKING FOR SPARES: TRACTORS PARTS

The tractors are totally by spare parts
