

ACCUFORM COLD HEADER

AFCH-50

AFCH-70

High Power Cold Header Module

End forming process

Module positioned inline with the bending arm.

Available in 50 and 70 ton units. The cold header can handle heavy materials such as stainless steel, creating high quality end forms.

MODULAR

ACCUFORM (COLD HEADER) High Power Cold Header Module

AFCH-50

AFCH-70

AccuForm Cold Header units

AFCH-50	50 ton unit	.157" to .472" wire (4mm to 12mm)	mild steel	43" X 63" X 72"
AFCH-70	70 ton unit	.236" to .625" wire (6mm to 16mm)	mild steel	52" X 70" X 77"

AFCH-50	Ram force 50 ton	Clamp force 400 ton
AFCH-70	Ram force 70 ton	Clamp force 550 ton

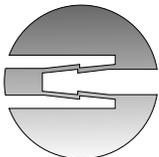

FEATURES

- Controlled by AIM Inc.'s SmartEditor™ software
- 20 HP hydraulic unit with integrated cooler
- Dual variable volume piston pumps
- End of stroke/return stroke sensors
- Quick change, keyless tooling
- Automated lubrication system
- Adjustable X position for large part clearance
- Tooling designed to part specifications, D2 steel

BENEFITS

- Cold forming of single and double upset profiles
- Reduce production costs by eliminating additional parts handling
- Integrated cold header wire form operation

Available on AFM modular machine systems
