AccuThread Single End Threading Module

ATH-8, ATH-12, ATH-16

| Model	Power	Wire Range	Size	Weight	Maximum Spindle Speed
ATH-8	6 KVA	.080 to .315 (2mm to 8mm)	40" X 52" X 60"	2300 lbs (1044 kg)	3000 RPM
ATH-12	8 KVA	.157 to .472 (4mm to 12mm)	44" X 52" X 60"	2400 lbs (1090 kg)	3000 RPM
ATH-16	11 KVA	.250 to .625 (6mm to 16mm)	54" X 52" X 66"	3050 lbs (1385 kg)	3000 RPM

FEATURES

3 Head unit, capable of chamfering, turning down, and roll threading
Quick tool changeover
Industry standard threading heads, chamfer tools, and turning heads
Threading inserts for English and Metric materials
Pneumatic clamp on ATH-8 and ATH-12
Hydraulic clamp on ATH-16
Threading up to 4" (100mm) of wire (depends on wire diameter)

BENEFITS

Reduce production costs by eliminating additional parts handling
Increases machine capabilities to do more complex parts complete, without the need for manual secondary operations
Greater ability to quote/bid more complex geometries, resulting in a competitive advantage

One threading tool set included per customer specification

Available on AFM modular machine systems
