

Community Design No: 000235429
 UK Registered Design No: 2098802

Features / Benefits

- Clean large areas quickly
- Cleaning diameter of 480mm
- Twin rotating nozzles
- Debris contained within bristle skirt
- Light weight & Easy to use

Ideal for: -

Block paved areas
 Patio Areas
 Concrete Surfaces
 Tarmac Pavement

Specification may differ per country. Brendon reserves the right to alter the specification without notice.

Dome Diameter: 520mm
Cleaning Diameter: 480mm
Operating Pressures: Min : 3000 psi / 207 bar @ 3.3 gpm / 15 lpm
 Max: 4000 psi / 275 bar @ 6.6 gpm / 30 lpm
Water Temperature: Max: 80°C
Weight: 14kg

The Roto-Jet is a simple yet highly effective rotary surface cleaning system, which allows the operator to clean various flooring types.

The high-pressure water and debris is contained within a bristle skirted, lightweight canopy allowing work to continue near pedestrians, the public and trafficked areas. The Roto-Jet is ideal for use with the Brendon 30/40 range of powerwashers and is supplied with appropriate nozzles and couplings.
