

J. BONALS S/A

HYDRAULIC BONALS PRESSES

Automatic hydraulic presses are based on swam-neck type and ideal for manufacturing tablets requiring high efforts.

They are equipped with a PLC and screen. Format, dose adjustment, filling depth and other parameters can be selected.

As an orientation, with 70mm dose and final tablet thickness of 45mm, a speed between 3,5 and 4 cycles per minute can be achieved.

Technical date	BH-100	BH-150	BH-200
N° of stations	1	1	1
Type of tooling	BONALS	BONALS	BONALS
Max \varnothing of tablet	270mm	270mm	270mm
Max filling height	90mm	90mm	90mm
Max pressure	100 T	150 T	200 T
Power supply	15 kW	22,5 kW	30 kW
Machine Dimensions	1,30 x 1,90m	1,60 x 2,30m	1,60 x 2,40m
Net weight	4.000 kg	6.100 kg	8.800 kg
