TRATAMIENTOS TÉRMICOS Y DE SUPERFICIES

The aim of the magazine **Interempresas Surface Treatments** is to inform this industry about all relevant issues, as well as to encourage, promote and stimulate the sector.

The magazine covers the main topics in relation with the surface treatments from different points of views, such as the one from companies that supply the industry with equipment for these purposes, and the ones that provide to other companies the service of treating surfaces in different ways.

In conclusion, a magazine exclusively targeted to all those involved in the surface treatments and more generally, to all those that produce parts in the industry.
