## OUR ACCESSORIES

A comprehensive range of machines also includes the matching accessories. Thus, it is possible to complete a machine or system in an appropriate manner so as to tailor it to its specified task.

Belt conveyor

Fines separator

Zigzag separator

Overbelt magnet

## OUR STANDARD ACCESSORIES AT A GLANCE

- Single-layer and double-layer metal detectors
- Cellular wheel sluices
- Overbelt magnets
- Fines separators
- Zigzag separators
- Extraction systems
- Belt conveyors
- Drag chain conveyors
- Screening machines / plan sifters
- Screw conveyors
- Pipe magnets
- Drum magnets

## YOU CAN COUNT ON US! OUR SERVICE

Our qualified expert personnel have many years of experience when it comes to building cutting mills and repairing our various machine types.

### Service and spare parts

Our range of services includes:

- Spare and wear parts from all major manufacturers
- Short delivery times
- Assembly, repair and maintenance work; if possible also on site
- Overhauling of parts and machines
- Newly-made parts

- Sharpening service for knives and grinding discs/segments
- Machine and system optimisations

## OUR RANGE OF USED MACHINES

**AMIS** always has more than 200 used machines from all major manufacturers (such as Condux, Dreher, Herbold, Pallmann, Rapid, Weima) as well as new ZERMA machines in stock. You will find everything you need for the processing of plastics, wood and other materials.

## OUR TECHNOLOGY CENTRE

Our in-house test centre, the so-called "Technology Centre", offers customers the possibility to test the machine that best matches their individual requirements, and to have it modified if necessary. Not only does **AMIS** offer effective and efficient problem solutions for a great variety of plastic and wood wastes, but the company also provides solutions for shredding "challenging" materials.

# HIGH-CAPACITY SHREDDERS

## OUR SHREDDERS AT A GLANCE

Suitable for a multitude of shredding tasks, our single-shaft shredders can be used for plastics, wood, paper and different waste materials. They are often used for the preliminary size reduction of materials which are subsequently shredded by a cutting mill.

### OUR SHREDDERS

- ZBS 600 - ZBS 850
- ZWS 600 Smart - ZWS 2600
- ZHS 850 - ZHS 2600
- ZPS/ZSS 850 - ZPS/ZSS 2000
- ZIS 1200 - ZIS 2000
- ZXS 1500 - ZXS 3000
- ZTTS 1500 - ZTTS 3000
- ZRS 800 - ZRS 1500
- ZCS 600 - ZCS 1400

Please do not hesitate to get in touch if you need any further information. Of course, you can also visit our website [www.amis.de](http://www.amis.de)

# ALWAYS ONE STEP AHEAD

## OUR CUTTING MILLS AT A GLANCE

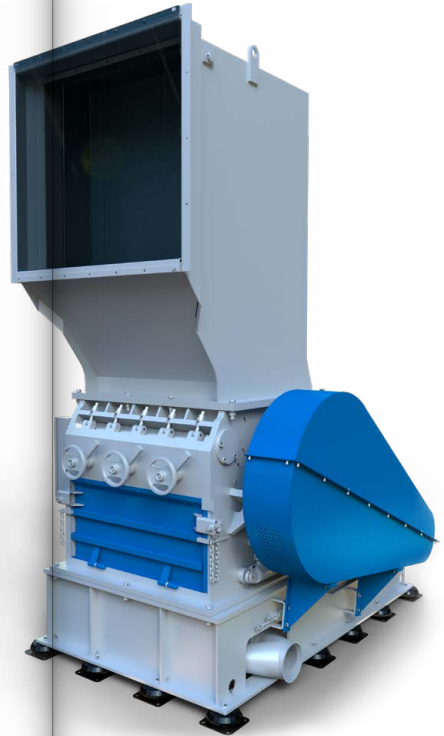

Our range of cutting mills covers everything from low-speed beside-the-press granulators to compact cutting mills - with or without soundproofing - to high-performance cutting mills for heavy-duty applications. Thus, we provide customised solutions for almost any application in the injection moulding, blow moulding, extrusion and recycling industries.

- Pipe and profile cutting mills  
GSP 600/500 - GSP 700/1400
- Baffle-plate impact mills/fine  
cutting mills PM 300/500/800

# WE HAVE A SOLUTION FOR EVERY APPLICATION

## OUR WOOD PROCESSING MACHINES AT A GLANCE

Customers from the plastics industry are not the only ones who have relied on our complete solutions for many years. We also receive an ever-growing number of enquiries from companies which have to deal with wood residues. Not only does the right combination of wood shredders and briquetting presses save you time and space, but it will also reduce your energy costs.
