Our values

OUR VALUES

IN PRACTICE

1 *Maximise your added value*

- ✓ Being advised and supported by a team of professional
- ✓ Machinery longevity
- ✓ Provide the best possible value

2 *Precision*

- ✓ Customized engineering
- ✓ 3-Points labelling technology
- ✓ High accuracy machinery

3 *Ease of use*

- ✓ Settings with minimum changeovers
- ✓ Intuitive touchscreen
- ✓ Product adjustment memorization

Our process

We translate those three values into working processes in our everyday customer relationship.

1 - CUSTOMER NEEDS IDENTIFICATION

- Project analysis
- Project study and technical advice
- Proposal

2 - PURCHASING PROCESS

- Validation and signature of the contract
- Issuing purchase order

3 - CUSTOMIZED ENGINEERING

- Qualify the environment
- Issuing technical drawing of the project
- Presentation and validation

4 - MANUFACTURING PROCESS

- Machining and Assembling
- Test and Machine setup

5 - QUALITY CONTROL

- Machine specification check
- Machine cleaning
- Machine packaging

6 - DELIVERY

- Machine delivered on premises by a carrier
- Machine installation and training by a CDA field technician

7 - TECHNICAL SUPPORT

- Transfer of the machine record to our after sales service
- Phone after sale service
- On site after sale service

CHABOT DELRIEU ASSOCIÉS

LABELLING SYSTEMS

Ninette I

Labelling machine for pressure sensitive labels.

SEMI-AUTOMATIC

The Ninette 1 enables efficient and precise labelling on cylindrical bottles.
Customers like it for its excellent value and its ease of use.

(Dimensions: 45x65x80cm with stand 65x61x110cm).

STRENGTHS

- + FOR ALL CYLINDRICAL CONTAINERS
- + EXCELLENT VALUE
- + EASE OF USE

FILLING & CAPPING SYSTEMS

The K-One is a versatile and precise peristaltic filling pump for all applications suitable for fluid liquids. It has three types of control: manual, automatic and with pedal. Thanks to the peristaltic pumping technology, the product never comes into contact with the pump, which facilitates the cleaning and product changeover.

Can be used in automatic or semi-automatic mode

Correction with automatic calculation

STRENGTHS

- + CAN BE USED IN AUTOMATIC OR SEMI-AUTOMATIC MODE
- + NO CONTACT WITH THE PUMP FOR A FAST PRODUCT CHANGE AND EASIER CLEANING
- + USER FRIENDLY AND EASY SETTINGS
