ACABADOS

Dry-touch

Este acabado de aspecto mate ofrece una textura real, consiguiendo que el diseño adopte un aspecto de madera cruda que carece de barnices o tratamiento alguno.

Wood-touch

Este acabado de tacto rugoso le confiere un carácter contundente al diseño al mismo tiempo que nos ofrece un nivel de brillo medio-alto.

Poro flooring

Acabado con un brillo de aspecto satinado y poro clásico lineal que resulta de carácter universal gracias a su estructura sin estridencias.

Rustic pore

Estructura de poro de madera no lineal que reproduce el veteado irregular y discontinuo, resaltando los colores de la madera.

Matt-oil

Acabado de poro cerrado que reproduce el efecto de los barnices al aceite consiguiendo el aspecto más mate de toda la gama Finfloor.

Handscrapped

Acabado que reproduce el efecto artesanal de la madera cepillada a mano realizando de este modo las "venas" de la madera. Acabado perfecto para maderas rústicas y nobles.

Wood impression

Reproducción fiel de los materiales originales consiguiendo que la textura de la madera coincida a la perfección con el diseño.
Roble Soberano: Dispone de un amplio abanico de tonalidades.
Nogal Luxury: Con un acabado muy mate de gran realismo.

Nature

Acabado de poro fino y elegante que, junto a un nivel de brillo medio-alto, consigue reproducir el efecto de una madera recién barnizada dotándola de una textura ligera y suave al tacto.

Saw cut

Equilibrada combinación de dos niveles de brillo que reproducen las estrías clásicas de la madera aserrada, al mismo tiempo que consiguen un efecto hiperrealista y un plus de dinamismo y heterogeneidad.
