TECHNICAL

Penwood 750 SERIES

Profile Width: 70 mm

Number of chambers: 5 chambers system

Profile Class: B Class (TS EN 12608-1)

Seal Type: External / Internal double seal system

Seal Type and Color: TPE - Grey /Black

Glass Thickness (mm): 4, 20, 24, 28, 32, 40, 42 mm

The thermal insulation Uf: 1,1W/m²K

Uw: 0,89 W/m²K

INSTRUCTION

- 70 mm profile system. Because of the composite profile extruded together, No need for extra metal reinforcement inside.
- No need for reinforcement cutting screwing unit and workman.
- Compared with metal reinforcement system profile, it has %30 more advantages with max heat-sound and water insulation.
- Just cut and weld. You do not need Metal Reinforcement and extra stock area for Metal Reinforcement.
- Possibility to install single 4-6 mm or double glazing 20, 24, 28, 32, 40, 42 mm with different thickness of glazing bead.
- It has water drainage channel, it can be directly drilled after cutting.
- Color range for laminated products.
- It's quality is accredited by national and international certificates.

TECHNICAL

W 800 SERIES

Profile Width: 80 mm

Number of chambers: 6

Profile Class: A Class (TS EN 12608-1) /
RAL 716-GZ A Class

Seal Type: External / Internal double seal
system

Seal Type and Color: TPE - Grey /Black

Glass Thickness (mm): 24, 32, 42 mm

The thermal insulation Uf: 1,2 W/m²K

W 860 SERIES

Profile Width: 80 mm

Number of chamber: 6

Profile Class: B Class (TS EN 12608-1) /
RAL 716-GZ B Class

Seal Type: External / Internal double seal
system

Seal Type and Color: TPE - Grey / Black

Glass Thickness (mm) : 24, 32, 42 mm

The thermal insulation Uf: 1,2 W/m²K

INSTRUCTION

- The profiles have 80 mm width.
- Because of the elastic grey and black seal which does not leave any stain on profiles will be provided maximum air, water, dust and sound isolation.
- Due to the 6 chambers profiles, it has maximum performance for thermal, sound and water isolation.
- It is a series of profiles with very special design that provides maximum wind resistance on high rise buildings.
- Excluding normal sash profile there is also chance to have a choice for offset type sash profile.
- In addition to white profile a different laminated color range is available.
- Application of 24, 32, 42 mm glazing beads give us alternatives of using double, triple glazing and panels.

TECHNICAL

W 873 SERIES

Profile Width: 80 mm

Number of chambers: 6

Profile Class: B Class (TS EN 12608-1)

Seal Type: External / Internal triple seal system

Seal Type and Color: TPE - Grey /Black

Glass Thickness (mm): 4, 20, 24, 28, 32, 40, 42 mm

The thermal insulation Uf: 1,15 W/m²K

INSTRUCTION

- The profiles have frame 80 mm, sash 70 mm width.
- Because of the elastic grey and black seal which does not leave any stain on profiles will be provided maximum air, water, dust and sound isolation.
- Due to the 6 chambers profiles, it has maximum performance for thermal, sound and water isolation.
- It is a series of profiles with very special design that provides maximum wind resistance on high rise buildings.
- In addition to white profile a different laminated color range is available.
- 4-5 mm single glazing, application of 20, 24, 32, 42 mm glazing beads give us alternatives of using double, triple glazing and panels.

INSTRUCTION

- The main profiles have 70 mm width.
- Because of the elastic grey and black seal which does not leave any stain on profiles will be provided maximum air, water, dust and sound isolation.
- Due to the 5 chambers profiles, it has maximum performance for thermal, sound and water isolation.
- It is a series of profiles with very special design that provides maximum wind resistance on high rise buildings.
- In addition to white profile a different laminated color range is available.
- 4-5 mm single glazing application of 20, 24, 28, 32, 40, 42 mm glazing beads give us alternatives of using double, triple glazing and panels.

TECHNICAL

WO 60 SERIES (101 SERIES)

Profile Width: 60 mm

Number of chambers: 3

Profile Class: B Class (TS EN 12608-1)

Seal Type: External / Internal double seal system

Seal Type and Color: TPE - Grey /Black

Glass Thickness (mm): 4, 20, 24, 30, 32 mm

The thermal insulation Uf: 1,56 W/m²K

INSTRUCTION

- The main profile has 60 mm width.
- Because of the elastic grey and black seal which does not leave any stain on profiles will be provided maximum air, water, dust and sound isolation.
- Due to the 3 chambers profiles, it has maximum performance for thermal, sound and water isolation.
- It is a series of profiles with very special design that provides maximum wind resistance on high rise buildings.
- Excluding normal sash profile there is also chance to have a choice for offset type sash profile.
- In addition to white profile a different laminated color range is available.
- 4-5 mm single glazing application of 20, 24, 30, 32 mm glazing beads give us alternatives of using double, triple glazing and panels.

TECHNICAL

W 880 HEBESCHIEBE SERIES

Profile Width: 185 mm frame, 80mm sash.

Number of chambers: 5 chambers system

Profile Class: A Class (TS EN 12608-1)
RAL 716-GZ

Seal Type: External / Internal double seal system

Seal Type and Color: TPE - Grey /Black

Glass Thickness (mm): 24, 32, 42 mm

The thermal insulation Uf: 1,5 W/m²K

INSTRUCTION

- 185 mm Frame, 80 mm sash profile combination.
- Because of the elastic grey and black seal which does not leave any stain on profiles will be provided maximum air, water, dust and sound isolation.
- Color range for laminated products.

THE APPLICATIONS OF HEBESCHIEBE SYSTEM

W 880 MAXIMUM MEASUREMENT

For W 880 series Windows, the maximum installation measurements (width/ height) are written on below chart. The specified measurements can not be exceeded.

Description	White Profile		Colored Profile	
	(A - B) Double Sash	(C-D-E-F) Multi Sash	(A - B) Double Sash	(C-D-E-F) Multi Sash
Width (m)	6 m	6,5 m	5 m	6,5 m
Height (m)	2.7 m	2.7 m	2.4 m	2.4 m
Space of Glass (m ²)	6.5 m ² x 2	-	5.5 m ² x 2	-
Surface Area of Window (m ²)	16.2 m ²	17,5 m ²	12 m ²	15,6 m ²

The accessories of the system can handle (include also glass) maximum 300 kg. If the sash weight is more than 400 kg it, has to be used necessary accessories for this weight.

TECHNICAL

W 232 DOUBLE AND SINGLE RAIL SLIDING SERIES

Profile Width: 75 mm double rail frame, 92,5 mm single rail frame and 50 mm sliding system sash profile.

Number of chambers: 3 chambers system

Profile Class: B Class (TS EN 12608-1)

Seal Type: The insulated bristle wick system

Seal Type and Color: TPE - Grey /Black

Glass Thickness (mm): 4 - 6, 20, 24 mm

INSTRUCTION

- 75 mm profile width with double railed frame and 92,5 mm width single rail alternative frame and 50 mm width of sash profile.
- Perfect thermal, sound and water isolation because of the 3 chambers system.
- The medium locked sash with a seal system.
- Application of single glaze 4-6 mm and insulating glass 20, 24 mm by grey sealed glazing beads in different thickness.
- Application with roller shutter and without roller shutter choices.
- Wooden designed laminated applications.
