ESTAMPACION TERCIOS FANTASIA SEDUCCION FUTURA

Estega

En este año 2016 **ESTEGA** (Estampaciones Técnicas de Galicia, SL) cumple sus primeros quince años.

Fue en el año 2001 cuando iniciamos nuestra actividad industrial en el sector de la transformación de chapas de aluminio. Somos una empresa joven y competitiva que se ha labrado, no sin esfuerzo, un importante hueco en el sector.

Desde ESTEGA hemos apostado siempre por la diversificación de procesos de producción, el compromiso con el I+D+i, la mejora continua y la calidad. Así mismo, nos esforzamos para mejorar constantemente nuestra formación con la intención de ofrecerles a nuestros clientes las soluciones que mejor se adaptan a sus circunstancias. Disponemos para ello de un servicio de asesoramiento personal con todas la garantías.

Nuestro objetivo, como no podía ser de otra manera, es ofrecer un producto de extraordinarias prestaciones técnicas y de diseño con una inmejorable relación calidad-precio.

Desde el comienzo, ESTEGA ha incorporado año tras año nuevos medios para mejorar su línea de producción: prensa hidráulica de 1600 Tm (2002), centro de mecanizado CNC (2004), línea robotizada de encolado Hot-Melt para foliado y panel sándwich (2006), líneas de sublimado de chapa y perfil para lacados efecto madera (2011) y la línea de lacado horizontal de gran capacidad (2013).

Realiza e imprime: Pigocia, servicios gráficos.
