FIELD ERECTED  
COOLING TOWERS  
(FECT)

## Why Field Erected Cooling Towers?

Field-erected cooling towers are used in a wide range of cooling applications such as industrial processes, refineries, manufacturing, power plants and HVAC.

Torraval cooling towers are designed and configured to meet the most critical customer thermal performance in a cost-effective way. Our designs are born for guaranteeing both lower energy consumption and operating costs, while providing ease of inspection and maintenance.

## Why WET Cooling Towers?

**The most affordable**  
Lower investment

**The most silent**  
Slightest sound

**The most efficient technology**  
Lower power consumption

**The most compact technology**  
Lower area

Is **legionella** a real problem?  
Not at all

I do not want **steam plume**  
TORRAVAL can remove it

Are there **size limitations**?  
Not at all

## Why TORRAVAL?

Since 1967 Torraval offers a wide range of evaporative cooling towers (FECT).

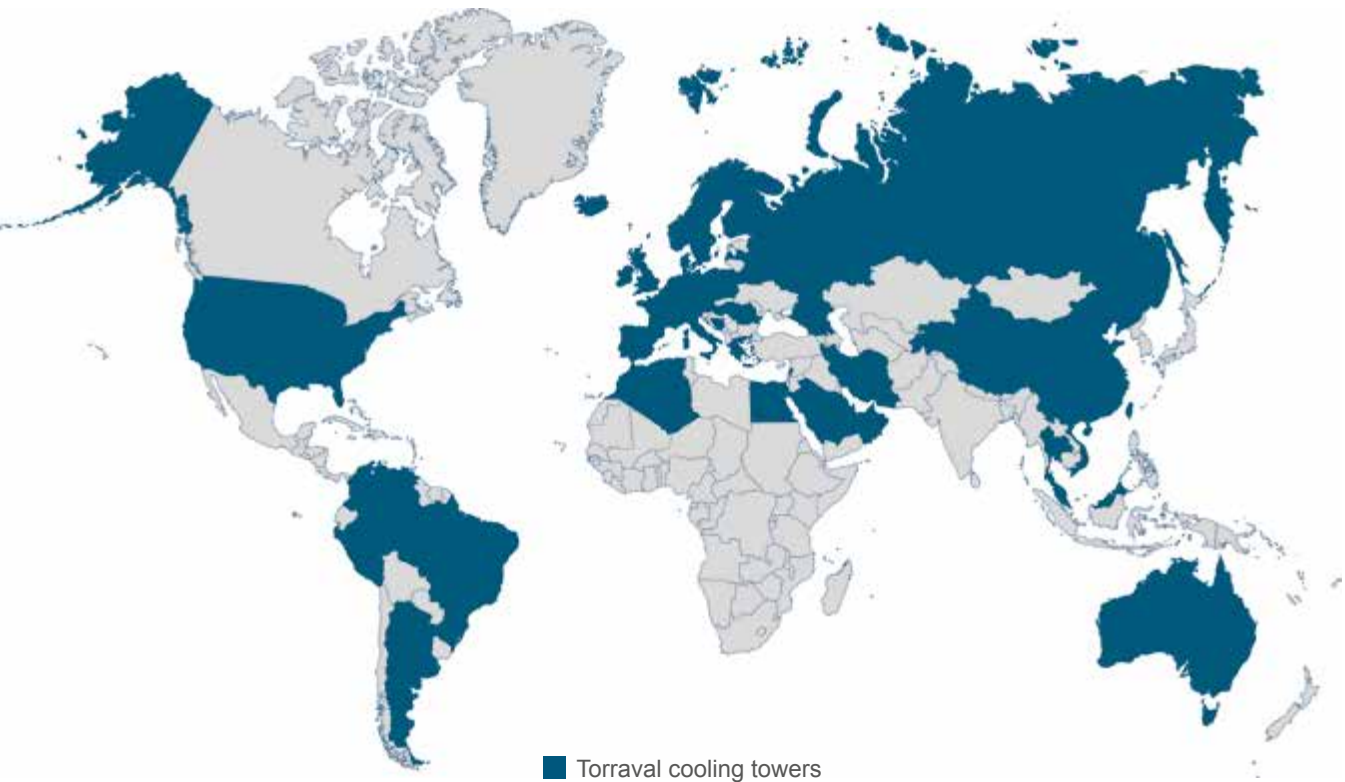

Our principles:

**FEXIBILITY** 100% tailor-made solutions to customer requirements

**EFFICIENCY** Solutions aimed at saving energy

**QUALITY** Solutions designed for long life
