Complete Document Comparison Solution

❶ User Management

Manage Electronic Records & User Controls

Monitor system activity and archiving functionality

Electronic Signature

❷ Barcode Verification

Supports the following Barcode types:

All Major 1D Linear Codes
PDF-417
DataMatrix
PostNet

❸ OCR Conversion

Convert scanned documents into Unicode text

Compare electronic files in almost any language, regardless of text size

Detailed output report of any differences found

❹ Text Compare

Compare Multiple text and content differences

Compare Multiple Format and Layout differences

Custom Reports

❺ ColorCheck™

Pixel to Pixel Color Comparisons

RGB & CMYK Color Values

Side-by-Side overlay view with flash tool for quick, easy comparison

❻ Braille Measurement and Reading
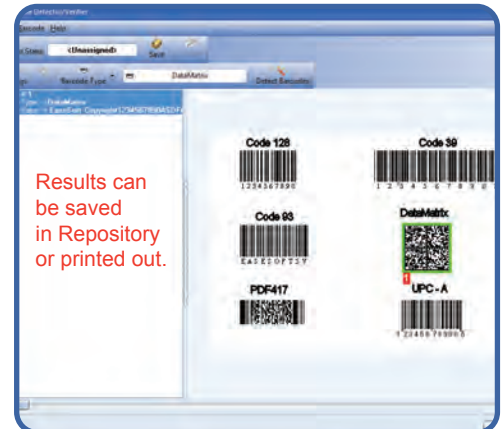

Examine Braille Scripts on Packages, Cartons and Foils

Decode from Braille to Text within seconds
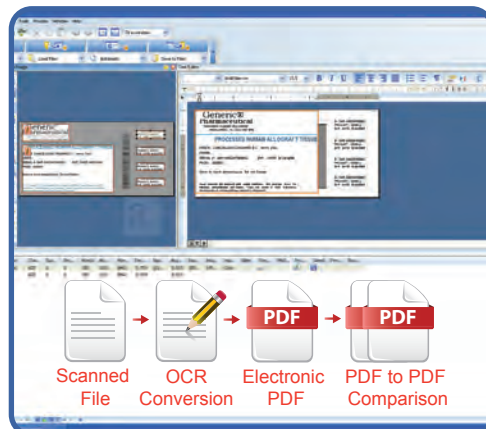

Braille Text to PDF or Plain Text comparisons

---

❶ User Management

❷ Barcode Verification

Results can be saved in Repository or printed out.

❸ OCR Conversion

Scanned File → OCR Conversion → Electronic PDF → PDF to PDF Comparison
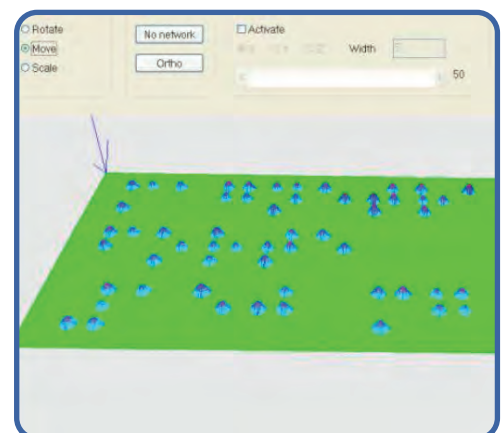

### ❹ Text Compare

❺ ColorCheck™

❻ Braille Measurement and Reading

Applications:

- Pharmaceutical
- Manufacturing
- Healthcare
- Printing
- Banking
- Elections
- Aerospace
- Legal
- Education

Optional Product Solutions

ScanCompare™ - IFU's, Booklets, Multi-Page Documents-
Not a problem... ScanCompare™ will automatically compare
every page in a simple batch process, archive the results and
generate custom reports.

Quantum Compare™ - Compare multiple page PDFs with
complex layouts utilizing our unicode-based text comparison
solution.

MultiCheck™ - Variable Print Inspection System ideal for
variable character fields, barcode information or sequentially
numbered products.

HD Barcode™ - Anti-counterfeiting, Identification and Brand
Protection Solution- *World's Most Advanced 2D Barcode!*
Customizable, secure and capable of storing up to 703 kB of
data.
