

The moment of trust.

Because Mother Nature waits for no one and the best days are often the longest. It's why you turn to Timken.

When you choose Timken, it's because you want worry-free operation. Timken bearings are made from Timken's own high quality alloy steel, meet rigorous quality standards and offer reliable operation from sun up to sun down. With our triple lip seals, Timken® ball bearing housed units retain grease and resist dirt and other contaminants. That performance, paired with our world-class technical and customer support, help you reap the rewards, with a name you trust.

TIMKEN
Where You Turn

Headquartered in Canton, Ohio, The Timken Company is proud to serve global markets with world-class products and services.
