

**The moment of trust.**  
When you realize  
that all cargo is  
precious cargo.  
That's when you know  
it has to be Timken.

With products like our revolutionary EcoTurn® non-contacting labyrinth seals, Timken is a recognized leader in reducing emissions and operating temperatures for rail customers around the world.

From traditional freight operations to 200-mph high-speed bullet trains, the success of today's rail industry turns to Timken. Learn more. Take a moment to visit [Timken.com/rail](http://Timken.com/rail).
