

StraPack®

Semi-Automatic Side Seal Stainless Steel Machine

The D-53M2 is the perfect machine for low volume applications in the seafood, poultry, meat, and other food processing industries.

■ Moisture Resistant

The body of the D-53M2 is primarily constructed from stainless steel.

The internal components are made of stainless steel or steel with a rust resistant coating. The strap dispenser is located on top of the machine to protect the strap in the wet and harsh environments.

■ Adjustable Table Height

The table height is adjustable to two different positions (732 millimeters or 28 7/8 inches or 642 millimeters or 25 1/4 inches from the floor).

D-53M2
