

KEY FACTS HIGH PRESSURE TANK CLEANING MACHINE PRESSURECLEAN

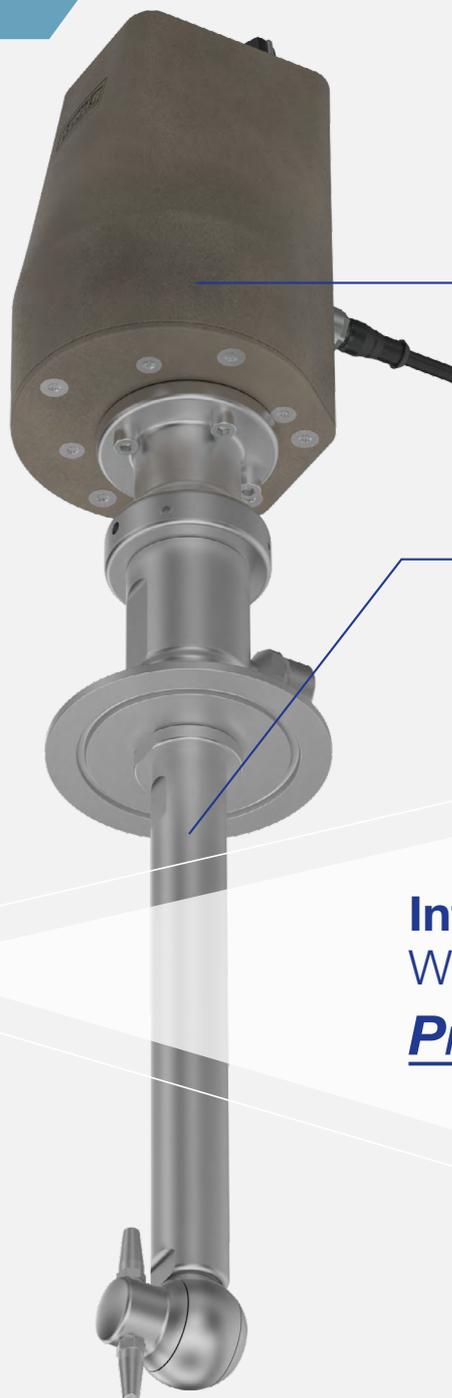

Series 5TP

GENERAL INDUSTRY

Features

- Intensive cleaning with little water and high pressure
- Ideal for small tanks with the most-persistent soiling
- Driven by an efficient 24 V motor
- „IP 65“-certified motor housing
- Use of high-quality materials: Stainless steel 316L, PTFE with carbon, PEEK, Si₃N₄, EPDM
- Recommended operating pressure 100 bar

Simple connection
with the ideal adapter
for IBC containers

„IP 65“-certified
motor housing with
an efficient 24 V motor

High-quality materials
Stainless steel 316L

Intensive cleaning.
With high pressure.
